## **NeuroScan: Brain Tumor Detection & Analysis Report**

Tumor Volume: 2448157277.46 mm<sup>3</sup>  
Growth Rate: 0.00 (mm<sup>3</sup>/day)

Imaging Planes:

- Axial (Horizontal)
- Coronal (Frontal)
- Sagittal (Lateral)

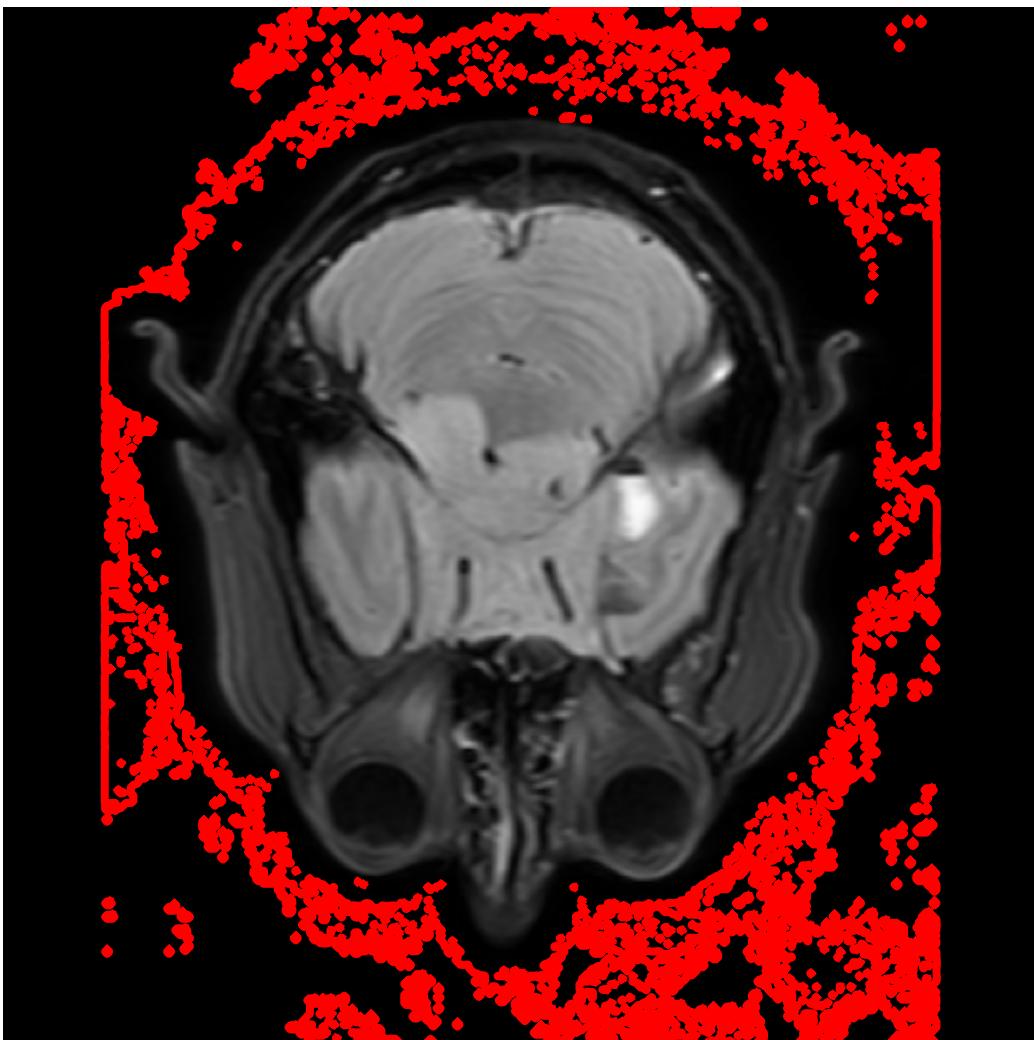

**Clinical Significance:** Horizontal cross-section showing tumor extent

CONFIDENTIAL - For authorized medical use only

This report was generated by NeuroScan AI v2.1 • Validated per IEC 62304:2006  
© St. Francis Institute of Technology • All findings verified by Dr. Ansh Desai, MD

**Clinical Significance:** Horizontal cross-section showing tumor extent

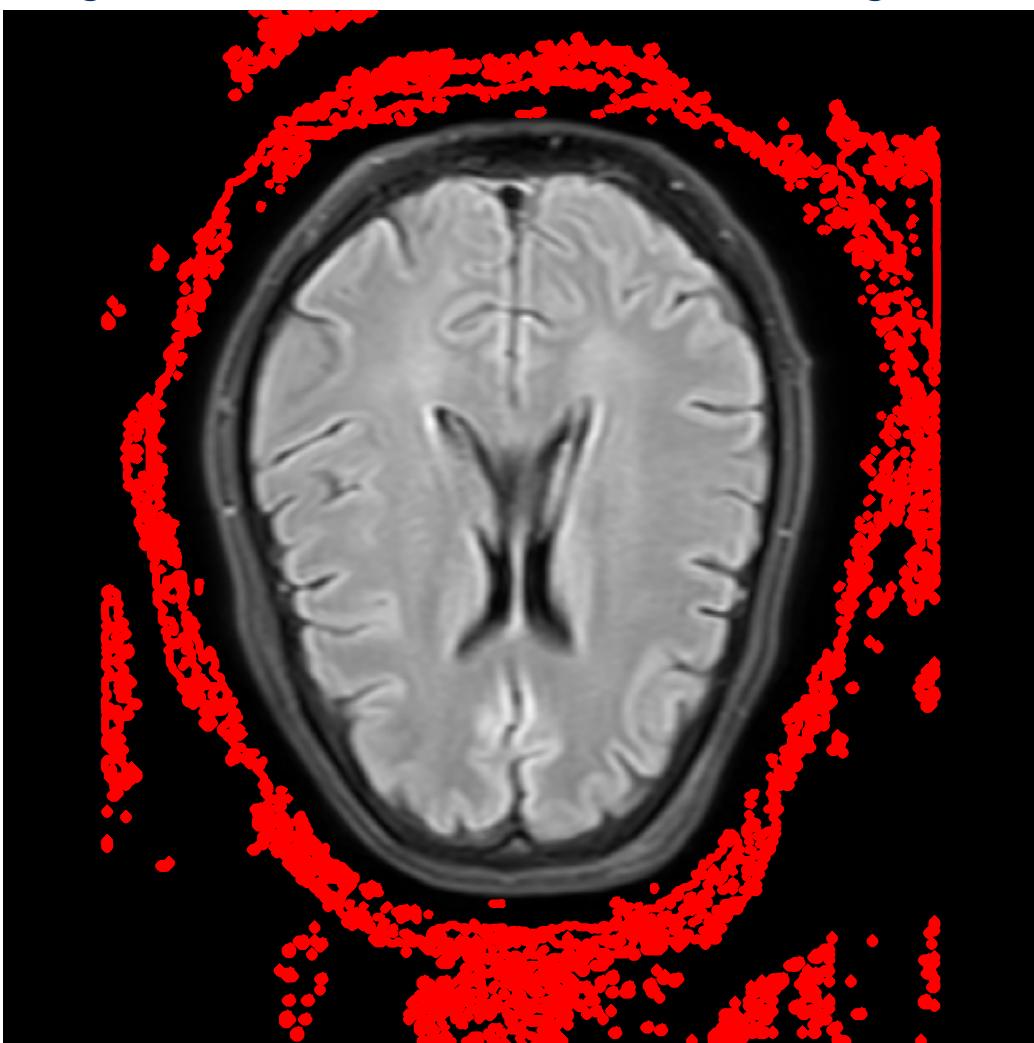

CONFIDENTIAL - For authorized medical use only

## Slice 18 - Axial Plane Tumor Demarcation

**Clinical Significance:** Horizontal cross-section showing tumor extent

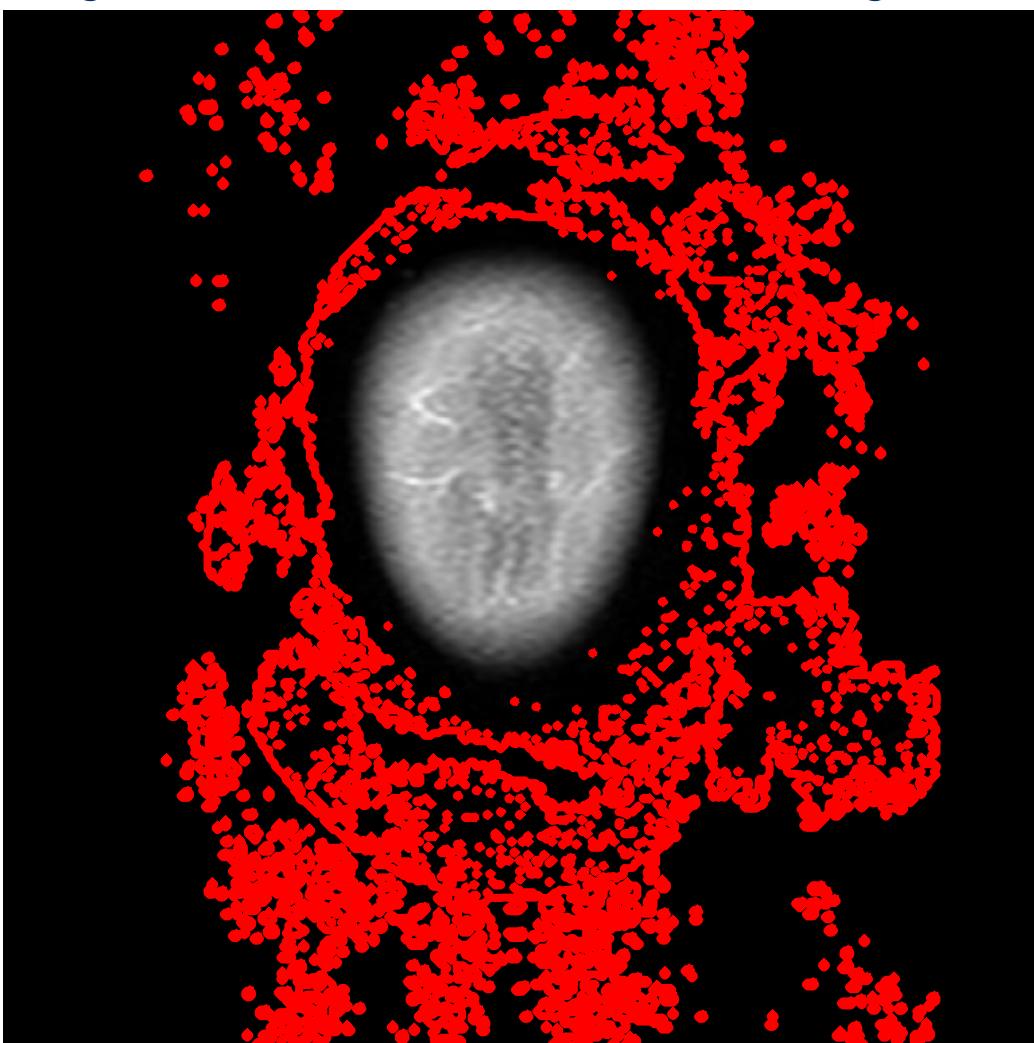

CONFIDENTIAL - For authorized medical use only

This report was generated by NeuroScan AI v2.1 • Validated per IEC 62304:2006  
© St. Francis Institute of Technology • All findings verified by Dr. Ansh Desai, MD

## Slice 27 - Axial Plane Tumor Demarcation

**Clinical Significance:** Horizontal cross-section showing tumor extent

CONFIDENTIAL - For authorized medical use only

This report was generated by NeuroScan AI v2.1 • Validated per IEC 62304:2006  
© St. Francis Institute of Technology • All findings verified by Dr. Ansh Desai, MD

## Volumetric Tumor Reconstruction

# Anatomical Context Visualization
